Fields of application

State of the Art Detailer for inside and outside - you're gonna love the hydrophobia!

Advantages at a glance:

- Xtreme water repellent effect
- highest protection with a unique showroom optic
- easy to use - spray on, wipe off, done
- even applicable on wet paint
- also suitable for quick cleaning

Product description

In addition to the properties of a sprayable wax, **carwaxX® Hydro Detailer** impresses with an extreme water repellent effect, exclusive shine and strong protection against all weather and environmental influences that affect a vehicle in this way. Thus **carwaxX® Hydro Detailer** combines highest protection with a unique showroom optic and that is as simple and uncomplicated as it can be - spray on, wipe off, done!

Thanks to the exclusive active ingredients, you get a perfect and highly brilliant surface structure with a protective layer that is retained over several vehicle washes

Paint surfaces get an extreme deep shine and even glass, plastic, aluminum or chrome get a perfect finish. The special formulation of **carwaxX® Hydro Detailer** is free of aggressive acids or alkalis!

The newly developed Hydro Technology gives the surface an outstanding water-repellent effect in addition to the optical component. The surface tension is increased and water that hits the surface deforms into perfect small drops that roll off immediately.

carwaxX® Hydro Detailer is the ideal companion for every car wash and every visit to a car wash. Simply apply to the still moist vehicle, wipe off briefly and enjoy the effect. By regular application, the protective effect of waxed lacquers can be extended by about one year!

In addition to its protective and water-repellent properties, **carwaxX® Hydro Detailer** can also be used for quick cleaning. Light soiling and adhesions such as dust or pollen can be removed effortlessly with a single wipe.

The published information used in this sheet are based on the results of the technical research of our laboratories and only have an informing purpose. We exclude any liability, which are attributable to choosing the wrong product or wrong application and missing of necessary precautions. The user is advised to check the product carefully before usage and to grapple with the usage itself.

Technical data:

Appearance	Color	Smell	Spec. Weight	Water solubility
Fluid	Pink	Pleasant	n.a.	Fully miscible

pH Value	Density	Viscosity	Ignition temp.	Flash point
8,5 ± 0,5	0,99	200	425°C	> 45°C
	[g/cm ³] at 20°C	[mPas] at 20°C		

Application:

Spray on, wipe off, done!
